

Polysite™ 6641 DMD 0,09 mm

1. GENERAL INFORMATION

Polysite™ 6641 DMD 0,09 mm is a PET-film covered on both sides with a PET-fleece and is 100% saturated with high-temperature resin. It has excellent thermal resistance, electrical, mechanical and impregnating properties. It is suitable for slot insulation, interphase insulation and liner insulation in Class F electrical motors. The PET-fleece absorbs a good amount of resin during impregnation.

The color of this product is white.

2. TECHNICAL VALUES

Nominal Thickness		[mm]	0,09
Composition	IEC 60626-2 / 4	[μm]	25/36/25
Thickness Film	IEC 60626-2 / 4	[μm]	36
Composition	IEC 60626-2 / 4	[mil]	1-1,5-1
Thickness Film	IEC 60626-2 / 4	[mil]	1,5
Area Weight	IEC 60626-2 / 5	[g/m ²]	100
Tensile Strength	MD IEC 60626-2 / 7	[N/cm]	≥60
Shrinkage	MD	[%]	1,5
	CD	[%]	1,1
Breakdown Strength	IEC 60626-2 / 10	[kV]	≥3,5
Max. Moisture Content	IEC 60626-2 / 12	[%]	1
Temperature Class	IEC 61857	°C	155

3. STORAGE AND AVAILABILITY

- Shelf life is 18 months from EXW date in original packing and under normal conditions (room temperature, 50% relative humidity)
- Standard width is 1000 mm
- Available from 10 mm width upwards

4. NOTES

All statements, technical information, and recommendations contained in this document are based on tests or experience that we believe are reliable. However, many factors beyond our control can affect the use and performance of a product in a particular application, including the conditions under which the product is used and the time and environmental conditions in which the product is expected to perform. Since these factors are uniquely within the user's knowledge and control, it is essential that the user evaluates the product to determine whether it is fit for a particular purpose and suitable for the user's method or application.

Values presented have been determined by standard test methods and are average values not meant to be used for specification purposes. Tolerances on thickness and area weight are +/- 15% if not stated differently.

All questions of warranty and liability relating to our products are governed by the terms of the respective sale subject, where applicable, to the prevailing law.

Polysite™ is a trademark of MaterialPartner Technische Werkstoffe GmbH.
